About This Game

Deep Dark Dungeon is a rogue-lite action game in which the player dives into the deep, dark depths of various dungeons filled with bad-tempered monsters that will attack them on sight.

Local Co-op Arcade Action

- Can be played with both keyboard or with Xbox controllers
- Can be played with friends on single PC (supports up to 4)

Action-packed with intricate movements

- Battles with monsters that require observation and strategizing
- 15+ different types of weapon, each with its own move-sets.

Every playthrough with a new experience

-
- Re-generation of dungeon maps, Items, and enemies each time you restart
 - 4 different areas, each with its own varieties of monsters and traps
 - More than 30 individual properties that makes you stronger each time you play
